

2nd Ljubljana HPB Symposium Programme

Friday, December 6:

08:00 - 10:00: **Registration**

10:00 - 10:10: **Opening** (Trotovšek)

10:10 - 10:40: State of the art lecture: What are the limits for surgery in primary liver tumours (Torsili)

10:50 - 11:20: Plenary lecture: Incidentaloma of the liver - What to do? (Janša)

11:20 - 12:20: SESSION 1: Benign liver tumours

11:20 - 11:35: Hemangioma

Radiology (Šušteršič)

Treatment (Kušar)

11:35 - 11:50: FNH

Radiology (Šušteršič)

Treatment (Kušar)

11:50 - 12:05: Adenoma

Radiology (Šušteršič)

Treatment (Kušar)

12:05 - 12:15: Follow up of benign liver tumours (Novak)

12:15 - 12:25: Discussion

12:30 - 13:30: LUNCH

13:30 - 16:00: SESSION 2: Intrahepatic cholangiocarcinoma (IHHC)

13:30 - 14:00: Invited lecture: Classification of cholangiocarcinoma (Trotovšek)

14:00 - 14:15: Diagnostics of cholangiocarcinoma - gastroenterology (Plut)

14:15 - 14:30: Diagnostics of cholangiocarcinoma - radiology (Rus Gadžijev)

14:30 - 14:45: Role of interventional oncology in IHHC (Štabuc M)

14:45 - 15:00: Chemotherapy for IHHC (Ocvirk)

15:00 - 15:15: Radiotherapy in IHHC (Oblak)

15:15 - 15:30: SABR for liver primaries (Schwarz)

15:30 - 15:45: Surgical principles in treatment of IHHC (Vrdoljak)

15:45 - 16:00: Resection vs. transplantation in IHHC (Muiesan)

16:00 - 16:30: COFFEE BREAK

16:30 - 17:50: SESSION 3: From research to clinical practice

16:30 - 16:50: Invited lecture: Electrochemotherapy in HCC: treatment of choice or just another ablative modality (Đokić)

16:50 - 17:05: Laparoscopic liver resection for IHHC - can we ensure an adequate

lymphadenectomy? (Ivanecz)

17:05 - 17:20: Large liver vessels and bile ducts are not damaged by electrochemotherapy (Žmuc)

17:20 - 17:30: Safety and efficacy of transarterial chemoembolisation using idarubicin in patients with HCC (Koršič et al.)

17:30 - 17:50: Discussion

17:50 - 18:50: SESSION 4: New frontiers in primary liver tumours

17:50 - 18:10: Invited lecture: Combining ECT with immunogenic therapy: a localised treatment approach with a systemic effect (Serša, Čemažar)

18:10 - 18:20: Prognostic factors for survival in patients with hepatocellular carcinoma treated by transarterial chemoembolisation using drug-eluting beads (Koršič et al.)

18:20 - 18:30: Selective internal radiation therapy with SIR-spheres in hepatocellular carcinoma - our experience (Vozlič et al.)

18:30 - 18:40: Percutaneous MWA of liver lesions - our results (Orešnik et al.)

18:40 - 18:50: Invited lecture: Preoperative portal vein embolisation - our results (Dežman)

20:00 Gala dinner

Saturday, December 7:

08:30 - 09:00: WEB - EAHPBA general assembly

09:00 - 10:45: Free Papers

Sequential therapy of HCC (Boltežar)

Multi-parameter US and focal liver lesions - case report with literature review (Hari)

Splenic artery steal syndrome after liver transplantation (Soprenić)

Surgical management of hepatoblastoma – case report (Stupan)

Diffuse hepatic hemangiomas in an adult – case report (Košir)

10:45 - 11:00: COFFEE BREAK

11:00 - 11:30: Eldar Gadžijev Lecture: Vascular disease of the liver and the development of hepatocellular carcinoma (Heaton)

11:30 - 14:00: SESSION 5: Hepatocellular carcinoma (HCC)

11:30 - 12:00: Invited lecture: Role of interventional oncology in HCC (Popovič)

12:00 - 12:15: Epidemiology and surveillance in HCC (Štabuc)

12:15 - 12:30: Invited lecture: HCC imaging (Garbajs)

12:30 - 12:45: BCLC - is it time to move further (Gavrić, Štabuc, Đokić)

12:45 - 13:00: HCC and indications for surgery (Mikulić)

13:00 - 13:15: Perioperative care in patients after liver resection (Andjelković)

13:15 - 13:30: Anatomical liver resection for HCC - the importance of Laennec's membrane concept (Karamarković)

13:30 - 13:45: Follow-up in patients with HCC (Rifatbegović)

13:45 - 14:00: Our experience in advanced HCC (Hanžel, Janša)

14:00 - 15:00: LUNCH

15:00 - 17:00: SESSION 6: Liver transplantation

15:00 - 15:20: Invited lecture: Effect of miosteatosis and skeletal muscle loss on complications in liver transplant patients (Petrič)

15:20 - 15:35: Pediatric liver transplantation in the UK (Vilca-Melendez)

15:35 - 15:45: Results of the liver transplant program in Slovenia (Hafner)

15:45 - 15:55: ROTEM-guided management of coagulopathy in liver transplantation (Godec, Stanić)

15:55 - 16:05: Transplantation in acute liver failure (Ribnikar)

16:05 - 16:35: Biliary stenosis after liver transplantation - who manages it best?

Gastroenterology (Plut)

Interventional radiology (Dežman)

Surgery (Trotovšek)

16:35 - 17:00: Discussion

17:00 **Closing** (Trotovšek)
